### **MILES DAVIS ENTERTAINMENT PACKAGE**

The winner of this package will receive a portrait of Miles Davis which was taken by Don Hunstein at the 30th Street Studios in New York in July 1958 during the recording of "Porgy and Bess." Davis's monumental collaboration with Gil Evans transformed the George Gershwin opera into a cool jazz masterpiece. Davis said that his "Porgy and Bess" album was one of his all – time personal favorites, as one can see the transcendent satisfaction on his face as he takes a draw from his cigarette and basks in the magic he and Gil have created in the air.

This piece is a museum quality fine art print and includes Certificate of Authenticity. AMC Entertainment is proud to present the winner of this package with a pass for two to as many movies they wish to attend for one year. It is valid at any AMC Theatre.

\*AMC pass may not be resold and once issued, is non-transferable. Expires one year after issuance.

OPENING BID	BID INCREMENTS	APPROX. DIMENSIONS
\$950.00	\$50.00	24"x 27"

RETAIL VALUE OF MILES DAVIS	RETAIL VALUE OF AMC THEATRE PASS	TOTAL RETAIL VALUE
\$749.00	\$1,144.00	\$1,893.00

AUCTION GUIDE

**HIS AND HERS SET FROM OAKLEY**

**Polarized OAKLEY NANOWIRE™ 1.0 Sunglasses**

It took three decades to achieve next to nothing. That's the only way to describe the weight of OAKLEY NANOWIRE™, a titanium alloy frame that practically feels buoyant in air. But the real breakthrough is the adaptable fit, a benefit of memory metal that allows us to create true sculptural contours that stay comfortably flexible. With a rimless design, it's probably the lightest sunglasses you'll ever wear, even though they carry a ton of optical innovation.

**CRANKCASE™ Watch**

Sometimes the most inspiring thing about our athletes is their unique sense of style. The Oakley CRANKCASE™ watch captures it with the kind of sophistication that commands the day and owns the night. Engineered for a life with momentum, this true Swiss Made chronograph lets you gauge the moments that refuse to stand still.

Measure added time and split time down to a tenth of a second with the ease of dedicated sub dials. The top bezel can be rotated for an additional measure of time, and a number scale around the perimeter of the dial lets you compute speed, based on travel time. This chronograph comes with the precision of 13-jewel Swiss Movement and the durability of water resistance equivalent to the pressure at 330 feet (100 meters) beneath the surface. The impact-forged stainless steel case is shielded with carbon reinforced impact bumpers and matched with a pure sapphire crystal, enhanced with anti-reflective coating. To elevate comfort to the level of style, the sculptural stainless steel links are crafted with self-lubricating thrust washers.

Be the lucky winner of this his and hers set from Oakley. You will receive two of the Polarized OAKLEY NANOWIRE™ 1.0 Sunglasses as well as two CRANKCASE™ Watches.

# Eyes of Hope

## ENCOURAGING CHILDREN TO PHOTOGRAPH THE WORLD THROUGH THEIR EYES

### EYES OF HOPE PROJECT

Photojournalist Linda Smith first traveled to Rwanda in 2006 where she spent much of her time behind the camera. The Rwandans were captivated by the photographs that Linda took since many of the children and adults she photographed had never seen an image of themselves. Linda recognized the potential that the camera held for the children, by not only providing them with documentation of their lives but also allowing them to experience a sense of joy and fun. When she returned to the United States, Linda began researching photograph-based projects for children. She wanted to develop an art program for children that utilized photography and had the potential to be successfully conducted in third world countries. As a result of her research and vision, The Eyes of Hope Project was born in 2007. The project has two goals - to teach basic photographic principles to extremely disadvantaged children and to educate children who are interested in learning about the children of other cultures.

OPENING BID \$500
